**NEW YORK STOCKS**  
New York, Nov. 22 (AP)—A slow sinking spell hit the stock market today and broke up a narrow mixed price pattern.

Leading issues were down fractions to around 2 points after starting off with fractional changes in either direction.

Rails, steels and motors took the brunt of selling. Oils, aircraft and chemicals also were down.

**GRAIN AND PROVISIONS**  
Chicago, Nov. 22 (AP)—Corn took over the grain market's leadership from wheat today, advancing more than a cent at times on fairly active buying.

Arrivals of cash corn in the spot market were down considerably from recent Mondays. Prices for cash grain advanced. Some analysts felt the peak of the harvest movement had passed. Negotiations looking toward a settlement of the longshoremen's strike also helped corn.

Wheat started out firm but ran into selling from the southwest. This was believed to represent hedging pressure. Reports to the trade said producers were free sellers of cash wheat at present price levels, which are well above the government loan price.

## Marshall Home

really appreciate tremendously the president's coming out to see me, particularly on a day like this.

The president and the secretary chatted for a few moments.

After photographs were taken, Mr. Truman turned to the general and said, "Let's get aboard." They went to waiting automobiles. Mr. Truman, General Marshall and Undersecretary of State Lovett riding together.

The trip home is Marshall's first since October 3, State Department officials said. It is uncertain whether he will go back to Paris, since the United Nations assembly has only a short time longer to run.

Diplomatic authorities agreed that Chiang presented Mr. Truman and Marshall with their most persistent — and in some ways most difficult — problem.

There was no assurance they would try to reach any sort of final conclusion in their first round of talks, but speculation persisted that some kind of statement might be forthcoming.

Before Mr. Truman is a request from Generalissimo Chiang Kai-shek for the United States in effect to take over the running of China's war against the Communists through American military advisers in China as well as great help to this country's material help to the Chinese army.

A proposal that the UNITED STATES either give China "all out" aid or none was made Saturday night by Special Senate Consultant D. Worth Clark who brought into sharp focus the question of how deeply this country should become involved in the Chinese war.

After laying down a plan for extensive military and economic help, the former Idaho senator declared that he would not say "whether such a comprehensive program will unjustifiably involve the United States in a foreign conflict."

Nor would Clark supply an answer to the high policy question whether the United States shall pay such a price to stay communism in China.

Thus the questions which he left unanswered are precisely those which Clark and Truman and Marshall confront under this arm warning Clark relayed from Chiang. "China must either have help or fall."

But urgent as it is because of recent Communist victories, the problem of China does not necessarily outrank other issues before Mr. Truman and his secretary of State.

It seemed very probable that one of the first concerns of both men would be to determine Marshall's future plans. In advance of the meeting the betting was that he would remain in the cabinet beyond the beginning of the new presidential term on January 20.

Persons close to Mr. Truman reported that he intended to urge Marshall to delay his retirement for some months. Marshall's associates noted that he has always considered himself a soldier under orders to the president.

## Arkansas

lately undesirable by Cantrell. It has helped the expansion of Arkansas industry, particularly in a city like North Little Rock where the population has nearly doubled in the past decade. And, said the director, the undeveloped where available resources promise an added industrial potential—most certain to show a similar increase in the not too-distant future.

Some of it will probably come from migration into, instead of out of the state.

Of course, further industrialization in Arkansas may draw off more of the rural population and agricultural labor supply. But Cantrell says this will be offset by greater mechanization on farms.

Meanwhile, the urban areas—ranging from Little Rock to the capital city—continue to grow.

An interesting point in this connection has been the race for third place honors between Pine Bluff and North Little Rock. Hot Springs, a formidable contender in 1947, is running a poor fourth, although the resort city has 5,720 more residents than it had when the last official census was taken.

In 1940 all three cities were running neck and neck in the population race. Hot Springs had 21,970 inhabitants, Pine Bluff 21,290 and North Little Rock 21,137. But now the situation is partially reversed.

At Pine Bluff, George Sneed, of Pine Bluff said recent questions have given the Jefferson county an estimated population of more than 45,000, or about 3,000 less than the 48,000 now claimed for second-place Hot Springs.

North Little Rock, with its industrial expansion, now has more than 39,000 residents. And the present population of Hot Springs is 27,500.

Little Rock's spread is reflected in the capital city's growth from 32,039 in 1940 to an estimated 98,902 today.

The eight-year expansion of other Arkansas cities and towns as indicated by special census and estimates by city officials includes:

Arkadelphia from 5,079 to 6,153; Blytheville from 10,652 to 14,000; Camden from 9,775 to 10,902; Conway from 5,782 to 7,022; El Dorado from 13,358 to 19,000; Fayetteville from 8,212 to 3,000 (excluding university students); Hope from 7,475 to 8,594; Jonesboro from 11,729 to 17,000; Lake Village from 2,045 to 2,524; Magnolia from 4,325 to 6,321; Newport from 4,221 to 4,394; Russellville from 5,927 to 6,500; Texarkana, Ark. from 11,321 to 17,000.

Cantrell emphasized that most of the urban gain has been in industrial cities along the Arkansas rivers and the main railroad lines.

Stock market eased down today by fractions to around 2 points. Leading prices were a little above the low points of the day.

Volume was around 850,000 shares.

Rails, steels and motors took the heaviest part of the pressure with declines of an and a half issues also going lower. Almost all of the groups headed down after a mixed trading in which trading was moderately active. Throughout the remainder of the day trading was at a steady pace without any concentrated surges.

Another flood of extra dividend payments again today was virtually ignored.

where Mr. Washburn and Mr. Jones received them in a cordial fashion. Mr. Washburn took the children through the paint shop to let them see the linotype and the teletype work. This, too, is in accordance with book week as the children have studied about the mechanism and printing of a book.

In Mrs. E. R. Brown's third grade at Brookwood, the children donated fourteen books for the room. They saved their "ice cream money" and spent it on a book for their reading.

Mrs. B. C. Hyatt's third grade gave a play this week entitled, "Mrs. Twinkleton and the Junior Red Cross." All the children in this room took part in the play which initiated the Junior Red Cross drive. All the children of Garland School got to see the play in the auditorium.

Special emphasis is being put on the fact that Junior Red Cross lasts throughout the year rather than just the week of the drive.

This year one of our main projects is to build our schools' libraries. Good books are children's friends and while they are reading and enjoying them in their leisure time, less time is left for idleness and doing undesirable things.

Castlin, caretaker of a closed-down mine at Evanscown. With no neighbors within 100 miles, Mr. Castlin has made friends with the birds. For a number of years he captured young galahs, a species of rose-breasted cockatoos, kept them for a time, caught them to talk, and then released them. They, in turn, have "taught" their wild companions.

**Turkey Day Game to Decide AIC** By CARL BELL

Little Rock, Nov. 22 —(AP)— As expected for weeks, the Arkansas Intercollegiate Conference football championship will be decided Thursday.

And it still looks as though the race will end in first place tie for the second straight year.

Arkansas Tech, which shared the crown with State Teachers last season, and Magnolia A. and M., are deadlocked on the top rung with six conference victories and one defeat apiece. They'll remain tied if both win or both lose their final games Thursday.

Tech appears "in" for the fourth consecutive season. The Wonder Boys' opponent Thursday will be a rather hapless Hendrix squad.

Magnolia also will be favored to win, but the underdog's job looks tough. They will face with third-place Arkansas A. & M. and on the Aggies' home field at Monticello.

If one of the leaders loses and the other wins, an undisputed champion will be determined.

Magnolia warmed up for its important Turkey day tilt by mauling Arkansas College 51 to 19 Saturday night.

Tech took a 14-7 non-conference decision from Bethany, Kas., College.

That kept the AIC kingship even in season play as well as the conference standings with seven wins and two defeats each.

The Wonder Boys' season riders met early in the season, Tech winning 14-7. But Magnolia Coach Elmer Smith contends his team should have won and would welcome a return meeting to play off any title for the championship.

While it will have no bearing on the title, the traditional battle between Arkadelphia's cross-town rivals, Ouachita and Henderson will be one of the top attractions Thursday. Ouachita's Tigers already have two post-season games scheduled.

**Trucker Held for Slaying Son-in-Law**

Matina, Nov. 22 —(AP)—A preliminary hearing was scheduled here today for a 45-year-old truck line operator in the fatal shooting of his young son-in-law.

Gordon Nelson is being held here on an open charge. Sheriff S. C. Jangston said Nelson admitted shooting Jimmy French, 21, five times with a .38 caliber pistol.

The shooting occurred at Nelson's residence when French allegedly attempted to force his way into the house following an argument with his wife, the sheriff reported.

It is estimated that some 15,000,000 Americans have some degree of hearing impairment, but only one-third or less need hearing aids.

# Fair Enough

By Westbrook Pegler  
Copyright, 1947  
By King Features Syndicate.

If you will try to keep a straight face, not pursing your lips and

blew derisive notes, I will read you something beautiful out of the minutes of the "Hodgson" and

Common Laborers' Union, one of Mr. Truman's loyal racketeers, with about 250,000 subjects at present.

It lives largely on your taxes because it owns, as though they were

beasts, the racketeers who do the heavy work building public

roads, conservation and flood control works, sewer and water

facilities, airports, schools and hospitals.

Under the Wagner Act and through the U. S. Employment

Service, this racket is a sleeping partner of the government and the Democratic part in the war.

The Wagner Act compelled the faceless man to join or go idle. This

meant a \$50 initiation fee collected much as this racketeers suckling

the years. But even today the employment service will not

send a stiff to a private job unless he shows his \$50 work license from the racket.

I have told you before that for 31 years, until 1944, had not

held a convention nor elected a single national officer by vote.

Our scene is the "convention" of 1941 and the boys are about to

nominate and "elect" a president for the first time in 31 years. He

is the incumbent, Joe Moreschi, of Chicago.

Brother D'Andrea, of Chicago, has the exquisite honor of nomi-

nating the big shot who sits in Washington and, with his son,

Faust, got indicted in a shakedown of a lot of poor rank and file. In-

stead of this racketeers sucking the money out of the pockets of the

Tom Clark union cases and Moreschi was a cohort of Mr. Clark's

party it goes almost without saying that Joe went free. Faust was

convicted slightly.

Brother D'Andrea, "Mr. chair-

man, brother delegates, guests, it fails to me to receive the honor

and great privilege of nominating for president a man who has dem-

onstrated to the world his ability to administer the affairs of this

great international

"In 1926, the Pilgrims landed on Plymouth Rock. Two and a half

centuries later, a family in a Euro-

pean country where opportunities were very scarce turned their eyes

turned out land and the United States. They migrated when this

man of whom I speak was a mere boy and came to the prom-

ised land. When this boy became a man, he decided to choose

to choose a strong bond and equal powers of endurance."

Presently Mr. Joe had "graciously accepted" the job of president of the "Hodgson" District Council

No. 1 in Chicago. In the 1940s, this horn-handed son of toil has

never done a tap of physical labor.

Today "Brother D'Andrea con-

cludes his sound thinking, his honest conduct, his affairs, until recently when those outside

the labor movement with the assistance of some disgruntled mem-

bers, decided to besmirch the fair election of this great organization.

But it has been demonstrated with out fear of contradiction and in no uncertain terms during the delib-

erations of this great body that this is a free, democratic and progres-

sive institution."

About 15 minutes more of this.

"Without further preamble and with an effort to express my deep

appreciation of the honor which has been conferred on me to be

recognized in making the nominating speech, I take great pleasure

at this time in presenting to the eighth convention (in 39 years),

Joseph V. Moreschi."

The delegates cheered and ap-

plauded and filed across the stage in tribute to Joe for 30 minutes.

When the tumult subsided, Brother Ross, of Jackson, Miss., swung

out into space as follows: "From the night, Father of Waters to the great Atlantic, from the mountains of Kentucky to the sun-kissed Gulf of Mexico, laborers look to the

election of a man who is honest, a man who is sincere, a man

whose heart bleeds for those who toil, and I take great pleasure in seconding the nomination of Joseph V. for 'victory' Moreschi."

Eventually, Brother Garvey, of Chicago, moved that the chair be

directed to dispense with the tedious formality of a formal balloting every 31 years and direct the secretary to cast a unanimous bal-

lot for Brother Moreschi.

This being done, the great man himself stepped forward amid a

smattering of applause, and, as the head of a filthy racket and a

gang of crooks, including Mike Carozzo, the boss of the prostitution

industry in darkest Chicago, with Jesus Christ.

"There is a time to express ap-

preciation of self-gain," he began. "There is a time that we are

proud because we have achieved certain personal activities. But my

purpose for arising is that you have expressed and exonerated the strain that was cast in our move-

ment (great applause) by unscrupulous-minded people who have no heart for the toilers, who are out

for self-gain and not for the cause of humanity. There I have cause

to have grief from. There isn't any human that I don't try to extend a

helping hand—him or her, whenever they may be—for an opportunity to advance to bring a

better understanding to harmony and progress and safeguard our

liberty. This was attacked. This was in the courts falsely discrim-

inating against the men and women who worked for a livelihood. It

caused our taxpayers a great amount of expense to hear these

false, unwarranted attacks. They were a challenge to destroy our

movement, to turn it over to selfish American organizations. As

I look in the stands I see the enemies of America trying to fa-

lterify through their papers propa-

ganda, by circulation of commu-

nications attacking the integrity of the workers of this country. I

pay attention. When Jesus Christ was in his last moment, they asked him what he desired to have done.

He said "they don't know any bet-

ter with me." Applause and cheers for Moreschi.

The tendency to self-defecation

is not peculiar to Mr. Moreschi.

P. D. Roosevelt compared his At-

lantic Charter to Holy Writ and

when he was down of a bellyache

phia Athletics for \$150,000.

# Haraway Named Head of Cotton States League

Helena, Nov. 22 —(AP)—The new president of the Class C Cotton States Baseball League is Al Haraway of Helena.

He was elected here yesterday at a meeting of the league's directors.

Haraway succeeds Jim Griffith, El Dorado, who was named vice president.

A 140-game schedule for 1949 was adopted by the directors who approved increasing the maximum number of first-round games in the

Shangnessy playoffs from five to seven.

Charles Kerg of Greenville, Miss., was named president of the Cotton States Sports Writers Association at a meeting held in conjunction with the league session. Dave Wallis of Pine Bluff, Ark., was re-elected secretary.

Bulletin

Los Angeles, Nov. 22 —(AP)—California was selected today as the Pacific coast conference representative in the Rose Bowl New Year's day.

By WILL GRIMSLEY

Evansville, Ill., Nov. 22 —(AP)—Northwestern's second-place Wild-

cats today unanimously were named to represent the Big Nine in the Rose Bowl next New Year's Day.

New York, Nov. 22 —(AP)—Two of the fancier bowls — Rose and Cotton—choose their Jan. 1 lineup today, but fans must wait another week to learn the rival attrac-

tions in Dixie's Sugar and Orange fixtures.

Northwestern needs only the Big Nine's formal part to start making plans for the Pasadena junket.

The Pacific Coast Conference, meanwhile, is polling members on whether Oregon or Oregon State furnish the Wildcats' opposition in the Rose pageant.

An announcement from both ends has been promised today.

Northwestern qualified for the assignment by beating Illinois, Saturday, 20-7, and finishing second in the conference to Michigan, which is ineligible to do a repeat job at Pasadena.

California and Oregon closed in a tie for the conference championship, the Bears with six victories and the Webfoots with seven against no defeats in the league.

But Oregon lost to Michigan outside while California went all the way without a blemish.

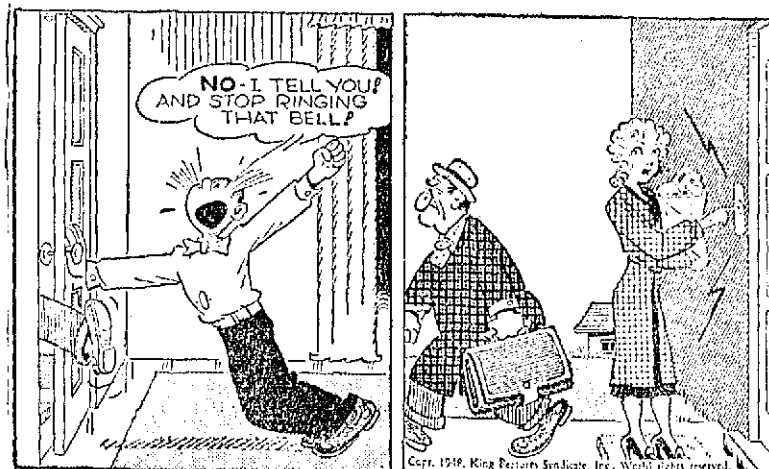

In the event of a tie in the Pacific Coast vote, the nod goes to Oregon because it has been longer since the Webfoots were in the

Southern Methodist clinched the host spot in the Cotton Bowl at Dallas by humbling Baylor, 13-6. Today the Mustang players vote on their opponent from a list of available teams submitted by the bowl committee.

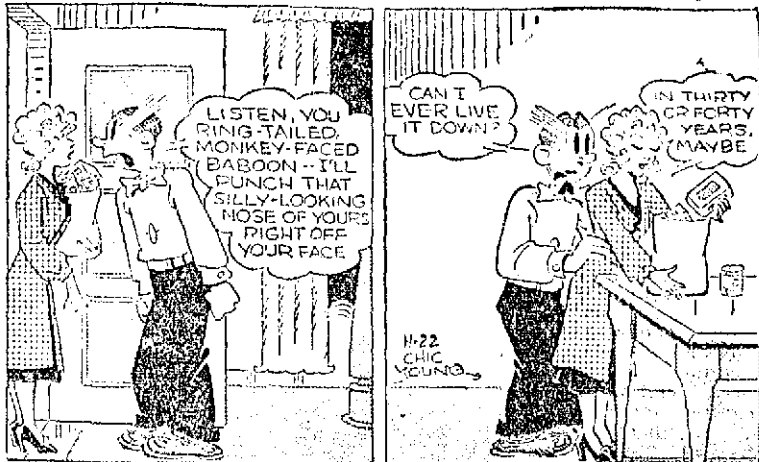

Oklahoma, North Carolina, Georgia and Clemson are reported high in favor with the Southwest-erners. But the availability of these teams is

## Employment to Remain at High Level

Washington, Nov. 22 — (UP) — Robert C. Goodwin, chief of the U. S. Employment Service, today predicted continued high employment through most of next year.

Goodwin told the United Press his staff of experts "see far hasn't found anything in the employment picture that indicates a major break in the foreseeable future."

He said there have been signs that employment is leveling off in many industries and even dropping sharply in some.

But, he added:

"For the most part the layoffs we have had are seasonal fluctuations, such as in the textile and construction industries where employment normally falls off in the fall of the year."

"In general, it looks to us as though employment will stay at high level for some time to come, at least through most of next year."

He said "there is every reason to believe" that total employment will top the one-time dream mark of 60,000,000 jobs "several times" in 1949, four months this year — during the peak farming season — from June to October — employment stayed above 60,000,000.

At the present time, the experts believe more than 59,000,000 Americans are working regularly.

Goodwin said job prospects are particularly good in the durable goods industries, such as steel, electrical appliances and aircraft manufacturing.

**He Asked For It**

Junior, who was still too young to walk, had cried and fretted all day, until the harassed housewife thought she would lose her mind. She told her husband all about it when he came home that evening.

"Well, remember," he reminded her, "the hands that rock the cradle rule the world."

About 7:30 that night, with Junior still crying on as before, she said to him:

"Accuse world domination for a couple of hours, darling, while I go to the movies."

**Convictions of Rape Upheld by High Court**  
Little Rock, Nov. 11 — (AP) — Conviction of Dr. G. W. McClure, Paragould, by a Greene Circuit Court jury on a charge of abortion was affirmed by the Arkansas Supreme Court today. He was sentenced to one year in the state penitentiary.

The court also affirmed the conviction of Charles Hamm, Little Rock Negro, on a charge of rape and denied Billy Forby, North Little Rock, a writ of prohibition to prevent his trial on a charge of rape.

Dr. McClure was charged with performing an abortion on Aylene James, 23, who died after the operation.

The court overruled all of the defendant's objections to the verdict and said:

"X x x Most of the cases involving violation of the abortion statute which have been under consideration in this jurisdiction resulted from the crude efforts of laymen x x x. This is not so in the case presently before us. Here, we have x x x an appellant whose very training has been directed to the preservation of life rather than its destruction."

The opinion added that "upon consideration of the entire case, we think the jury was warranted in its findings."

Hamm and Mizell Palmer were both convicted in Pulaski Circuit Court on a charge of raping a young Little Rock woman near here on the night of Oct. 19, 1947. Palmer received a death sentence, which was previously affirmed by the high court.

Hamm was sentenced to life imprisonment.

Today's opinion recited testimony that the victim positively identified Hamm. Her escort, who was held at pistol point during the assault, could not make positive identification and Hamm attempted to establish an alibi.

The court said the truth of the victim's testimony was a question for the jury and "in view of her identification in a manner positive and unequivocal, we cannot say that appellant's (Hamm's) identity as her assailant was not sufficiently proved."

And finding no error in the record, the court ordered the case affirmed.

The Supreme Court today also affirmed Palmer's request for a retrial in his case.

In denying Palmer's petition for writ of prohibition, the court held that an old statute providing for separate trial on the question of insanity in 1936 as initiated Act No. 3. That code provides for commitment of a defendant to the state hospital when the plea of insanity is made.

Early, 26-year-old World War II veteran, is charged with raping a seven-year-old North Little Rock girl as she was on her way home from the Park Hill school during the lunch hour.

Forby was sent to the state hospital, where he was declared sane. However, he was given a jury trial under the old statute and found "unsound mind." After that trial, the state hospital again declared him sane and Pulaski Circuit Court ordered his trial on the rape charge.

He sought the writ of prohibition to prevent trial on that charge and he had been declared sane at a separate jury trial on the question of insanity.

Fayetteville, Nov. 22 — (AP) — A 70-year-old Fayetteville Grocer, George W. Widner, died at City hospital this morning of injuries suffered when he was struck by an automobile last night.

The driver of the car was not held.

## Convictions of Rape Upheld by High Court

Little Rock, Nov. 11 — (AP) — Conviction of Dr. G. W. McClure, Paragould, by a Greene Circuit Court jury on a charge of abortion was affirmed by the Arkansas Supreme Court today. He was sentenced to one year in the state penitentiary.

The court also affirmed the conviction of Charles Hamm, Little Rock Negro, on a charge of rape and denied Billy Forby, North Little Rock, a writ of prohibition to prevent his trial on a charge of rape.</
